Appellees Samsung Display Co., Ltd, Toshiba Corporation and Funai Electric Co., Ltd., by their counsel, hereby move this Court pursuant to Federal Circuit Rule 26 for an extension of fourteen (14) days to file their principal brief in this matter, which is currently due on August 28, 2017. With the requested extension, Appellees' principal brief would be due on September 11, 2017. Appellees have not previously moved for an extension of time, and no previous extension has been granted to Appellees. In support of this Motion, Appellees state as follows:

1. This matter involves an appeal arising from a final decision of the U.S. Patent and Trademark Office Patent Trial and Appeal Board issued December 27, 2016 cancelling claims 2-3 and 5-6 of U.S. Patent No. 5,966,589 in IPR2015-01417. The appeal was docketed as Appeal No. 17-1738.

2. After receiving a 30-day extension of time, which was not opposed by Appellees, Appellant filed and served its opening brief via the Court's electronic case filing system on July 17, 2017.

3. Appellees' principal opening brief is currently due on August 28, 2017.

4. There is good cause for the Court to grant this Motion for an extension of time. Several of the attorneys with principal responsibility for drafting and reviewing Appellees' brief have scheduled vacations and commitments in other legal matters over the course of the next few weeks. Because of those commitments, Appellees request an extension of 14 days for the submission of their principal brief. Appellees have not previously sought any extension of time in this appeal.

5. Counsel for Appellees conferred with counsel for Appellant, who have indicated that they do not oppose the requested extension of time.

WHEREFORE, for the foregoing reasons, Appellees respectfully request that this Court extend the deadline for filing Appellees' principal brief by 14 days to September 11, 2017.
